DETAILED ACTION

Election/Restriction

Applicant's election without traverse of Group I, i.e., claims 1-9, in the reply filed on May 27, 2005 is acknowledged.

Accordingly, claims 10-18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Drawings

The drawings are objected to because:

(a) it is unclear what is being depicted in Figure 4. It is noted that applicant has stated that Figure 4 is an "exploded view". and

(b) It is strongly suggested that Figure 2 contain assembling lines.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because it contains an embedded hyperlink and/or other form of browser-executable code. Applicant is required to delete the embedded hyperlink and/or other form of browser-executable code. See MPEP § 608.01.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, and 5-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The use of the phrase "may be" in lines 11 and 19 of claim 1 renders the claim indefinite since what "may be" to one, "may not be" to another and therefore the metes and bounds of the claim cannot be properly ascertained.

Claim 1 recites the limitation "the vertical support" in line 11. There is insufficient antecedent basis for this limitation in the claim. To correct this, it appears, in view of line 8, that --element-- should be inserted after "support" in line 11.

Claim 2 recites the limitation "the lower portion" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitations (a) "the bottom support" in line 4, (b) "the top wire segment" in line 7, and (c) "the lower wire segment" in line 8. There is insufficient antecedent basis for these limitations in the claim.

Art Unit: 3634

Claim 7 recites the limitation "the bottom support" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 8 is rendered indefinite by the language "wherein there in there" in line 1.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action, claims 2, 5-8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action, and claims 3, 4, and 9 are objected to as being dependent upon a rejected base claim.
